

## **Question:**

- ✓ *Do your installers know the three steps that must be taken in order to properly focus a lens?*
- ✓ *Do they know that there are dozens of types of coaxial cable, but only one type is correct for use with traditional closed circuit television cameras.?*
- ✓ *How much money could you save in a year if your installers knew the common CCTV mistakes and how to avoid them?*

### **Tennessee Alarm Board & NBFAA Approved CLOSED CIRCUIT TELEVISION ESSENTIALS**

April 21 & 22, 2006, Chattanooga, TN  
May 12 & 13, 2006, Memphis, TN  
June 16 & 17, 2006, Knoxville, TN  
July 14 & 15, 2006, Nashville, TN

### **NICET CCTV CERTIFICATION PREP**

#### **authored and presented by Howard Kohnstamm**

What started out, nearly 15 years ago, as an after lunch talk on "common CCTV mistakes" has evolved into this newly revised course, updated to include current topics such as DVR's and networking. It is a good prep course for the new NICET CCTV Level 1 or 2 Installation or Level 1 Designer certification

Our goal is to provide each student with a balance of theory and practical application that will aid in the proper design and installation of CCTV systems. We take highly technical subjects and attempt to demystify them using animations, video clips, and live demonstrations so that the average installer or salesperson will have no problem absorbing them.

We begin by examining each topic in a specific order that allows us to build on our knowledge as we go. Some items may seem out of order, but their information is needed to explain a subsequent topic. As we move towards putting the parts together, we examine the tools needed to do the job right. Eventually, we examine the elements that allow us to design, install, test, commission and troubleshoot a complete system.

Tennessee Alarm Contractors Board Course #0504.01

Approved for:

16 CEU Credits

Qualifying Agent Initial Application

**Level 1 equivalent to comply with the new employee training rules effective Jan 1st, 2005.**

NBFAA Course #05-1469

Approved for:

1.6CEU Credits
